Annual Progress Report - Calendar 2017

Substances for which toxic substance reduction plans have been prepared:

Substance	CASRN
PM10	NA-M09
PM2.5	NA-M10

Plan Objectives

The reduction of toxic substance use, creation and releases is a priority for Elmira Pet Products forming part of our sustainability programs and EMS. Our goal is to reduce the creation and release of PM₁₀ and PM_{2.5} where technically and economically feasible. No technically and economically feasible reduction options for reducing PM₁₀ and PM_{2.5} were identified. The facility will continue to monitor new technological advancements to ensure that reduction options that are both technologically and financially viable are implemented at our facility.

Toxics Reduction Progress

In terms of quantities of the substances reported, the current reporting year saw increases for both PM₁₀ and PM_{2.5} due to increases in the facility's overall production in 2017 relative to 2016. No technically and economically feasible reduction options for reducing PM₁₀ and PM_{2.5} were identified. The facility will continue to monitor new technological advancements to ensure that reduction options that are both technologically and financially viable are implemented at the facility.

Plan Implementation Progress

No technically and economically feasible reduction options for reducing PM₁₀ and PM_{2.5} were identified. The facility will continue to monitor new technological advancements to ensure that reduction options that are both technologically and financially viable are implemented at the Facility.

As of **May 11, 2018** I certify that I have read the reports on the toxic substance reduction plans for the above noted substances and am familiar with their contents and to my knowledge the information contained in the reports is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under the Act.
