Substance Accounting	
Substance	
PM ₁₀	
CAS Number	
NA-M09	
On a facility-wide basis - amount that entered the facility as the substance itself or as a constituent of another substance:	
Quantity	Units
0.000	Mg
The amount of substance that was created:	
Quantity	Units
6.838	Mg
The amount of substance that was contained in the product:	
Quantity	Units
0.000	Mg
On-site releases from the facility to air, water, land as well as on and off-site disposal and off-site recycling can be viewed by searching for this facility at http://www.ec.gc.ca/inpr-npri/default.asp?lang=en	
Substance	
PM _{2.5}	
CAS Number	
NA-M10	
On a facility-wide basis - amount that entered the facility as the substance itself or as a constituent of another substance:	
Quantity	Units
0.000	Mg
The amount of substance that was created:	
Quantity	Units
3.252	Mg
The amount of substance that was contained in the product:	
Quantity	Units
0.000	Mg
On-site releases from the facility to air, water, land as well as on and off-site disposal and off-site recycling can be viewed by searching for this facility at http://www.ec.gc.ca/inpr-npri/default.asp?lang=en	
Comparison of Annual Reported Amounts	
Substance

Annual Progress Report – Calendar 2019							
Substances for which toxic substance reduction plans have been prepared:							
Substance				CAS Number			
PM ₁₀				NA-M09			
PM _{2.5}				NA-M10			
Plan Objectives							
The reduction of toxic substance use, creation and releases is a priority for Elmira Pet Products forming part of our sustainability program and EMS. Our goal is to reduce the creation of PM ₁₀ and PM _{2.5} where economically and technically feasible. No economic or technical feasible reduction options for PM ₁₀ and PM _{2.5} were identified. The facility will continue to monitor new technological advancements to ensure that reduction options that are both financially and technologically viable are implemented at our facility.							

Toxics Reduction Progress	
In terms of quantities of the substances reported, the current operating year saw increases in both PM ₁₀ and PM _{2.5} due to increases in the facility's overall production in 2019 relative to 2018. No economically or technically feasible reduction options for reducing PM ₁₀ and PM _{2.5} were identified. The facility will continue to monitor new technological advancements to ensure that reduction options that are both financially and technologically viable are implemented at the facility.	
Plan Implementation Progress	
No economically or technologically feasible reduction options for mitigating PM ₁₀ and PM _{2.5} were identified. The facility will continue to monitor new technological advancements to ensure that mitigation options that are both economically and technologically viable are implemented at the facility.	
As of December 14, 2020, I certify that I have read the reports on the toxic substance reduction plans for the above noted substances and am familiar with their contents and to my knowledge the information contained in the reports is factually accurate and the reports comply with the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 (General) made under the Act.	
Highest Ranking Employee	Bryan Cook
Title	President and CEO
Phone Number	(519) 669-6233
I, the highest-ranking employee, agree with the certification statement(s) above and acknowledge by checking the box I am electronically signing the statement(s). I also acknowledge that by pressing the 'Submit Report(s)' button I am submitting the facility record(s)/report(s) for the identified facility to the Director under the Toxics Reduction Act, 2009. I also acknowledge that the Toxics Reduction Act, 2009 and Ontario Regulation 455/09 provide authority to the Director under the Act to make certain information as specified in sub-section 27(5) of Ontario Regulation 455/09 available to the public.
